

CytaConnect

Global MPLS Connections

CytaGlobal in association with Cyta UK and Cyta Hellas have built a global new-generation network based on the MPLS protocol, integrating voice, data and video and promising to deliver high quality and reliability.

- A seamless platform across multiple sites
- Point-to-Point and Point-to-Multipoint configurations
- Consistent and meaningful Service Level Agreements
- Managed solutions that bring about a further dimension of flexibility
- Comprehensive reporting that keeps you in control
- Scalability through an intelligent network, enables you to deploy new capacity or functionality quickly.
